Applicant: Kentaro HARA
Title: RADIO SYSTEM
Appl. No.: 09/941,732
Filing Date: 08/30/2001
Examiner: E. Urban
Art Unit: 2683

RECEIVED

DEC 18 2001

Technology Center 2600

LETTER REGARDING THE PRIORITY DOCUMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

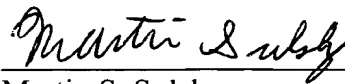

Applicant claims priority based on Japanese patent document 2000-260658, filed August 30, 2000. A certified copy of that priority document was previously submitted to the PTO on October 3, 2001, but was erroneously filed with a wrong header, and therefore ended up in another pending patent application. Applicant's representative has recently filed a Request to Transfer Information to Correct Application File, or, in the Alternative, Petition for Transfer or Return of Information in order to get the priority document transferred to this application. Applicant's representative was informed by the Examiner handling the other case that the filing date of the priority document will be the original filing date in the wrong application, and that the priority document will be transferred to the correct (this) application in due course. In order to make sure this happens, please contact the undersigned at the local telephone number listed below, and information concerning the other application (e.g., its

serial number and the name of the patent examiner handling that case) will be provided, so that hopefully this will expedite the transfer of the priority document to this application.

Respectfully submitted,

December 18, 2001

Date
